Sample & Assay Technologies

QIAGEN is the leading provider of sample and assay technologies. Sample technologies are used to isolate DNA, RNA, and proteins from any biological sample. Assay technologies are then used to make specific target biomolecules, such as the DNA of a specific virus, visible for subsequent analysis.

We have developed and market more than 500 consumable products and automated solutions. The company provides these products to molecular diagnostics laboratories, academic researchers, pharmaceutical and biotechnology companies, and applied testing customers for purposes such as forensics, animal or food testing and pharmaceutical process control. QIAGEN's assay technologies include one of the broadest panels of molecular diagnostic tests available worldwide. This panel includes the digene HPV Test, which is regarded as a "gold standard" in testing for high-risk types of human papillomavirus (HPV), the primary cause of cervical cancer, as well as a broad suite of solutions for infectious disease testing and companion diagnostics.

QIAGEN employs more than 3,900 people in over 35 locations worldwide. Further information about QIAGEN can be found at [www.qiagen.com](http://www.qiagen.com).

## QIAGEN around the world

## Molecular Diagnostics

Physicians, hospitals and healthcare providers use QIAGEN technologies to save lives and fight disease. Our products support disease prevention such as screening women for risk of cervical cancer; profiling of patients to pinpoint many infectious diseases; personalized healthcare to guide treatment decisions; and point of need testing to provide on-site diagnosis.

## Applied Testing

Professionals in fields such as human identification and forensics, food testing and veterinary medicine use QIAGEN technologies in commercial applications beyond human healthcare. Our products are helping to solve crimes, secure food supplies and detect potentially devastating livestock diseases.

## Pharma

Scientists in the pharmaceutical and biotechnology industries look to QIAGEN to advance gene-based drug discovery and development, supporting the creation of new medical breakthroughs.

## Academia

Researchers at life science laboratories around the world depend on QIAGEN to advance our understanding of the molecular basis of life. Customers include universities and research institutes.

## Sample and Assay Workflows

QIAGEN sample and assay technologies integrate seamlessly to provide you with workflows that you can rely on. With access to content from any biological sample, our customers achieve outstanding success and breakthroughs in life sciences, applied testing, pharma, and molecular diagnostics. QIAGEN Quality™ ensures your success — from sample to result.

## Automated Sample and Assay Technologies

Automated sample and assay technologies free up your time. Complete automated solutions suit your application requirements and daily throughput needs. Reliable automated systems backed up by comprehensive support services ensure the continued success of your laboratory — from sample to result.

## MDx Sample and Assay Technologies

MDx sample and assay technologies provide complete solutions for sample collection, nucleic acid purification, pathogen detection, and genetic testing. QIAGEN's aim is to support clinical decision-making and improve patient healthcare with advanced technologies — from sample to result.

## Epigenetics Sample and Assay Technologies

Epigenetics sample and assay technologies provide convenient and reliable analysis of DNA methylation. QIAGEN products for sample collection, DNA purification, bisulfite conversion, whole bisulfite amplification, and analysis ensure your success — from sample to result.

## Protein Sample and Assay Technologies

Protein sample and assay technologies allow you to simplify complexity in applications from gene expression analysis to proteomics. Protein structural studies and function analysis enable discovery and development of new drugs in the pharma industry. QIAGEN Quality™ ensures your success with proteins — from sample to result.

## Genomic DNA Sample Technologies

Genomic DNA sample technologies provide you with essential tools for DNA purification from a wide range of sample types. Dedicated DNA extraction systems for forensics enable reliable determination of genetic identity to solve crimes and increase security. Trust your case to QIAGEN — from sample to result.

## Plasmid DNA Sample Technologies

Plasmid DNA sample technologies provide unparalleled convenience, speed, and DNA purity. DNA sequencing is providing genetic maps for increased understanding of relationships between species and populations, and genotyping of differences between individuals. Analyzing genetic differences is made easy — from sample to result.

## DNA Cleanup Sample Technologies

DNA cleanup sample technologies ensure downstream success with advanced techniques, such as next-generation sequencing. High-throughput sequencing is important for a wide range of applications including whole genome sequencing as de novo or resequencing, transcriptome profiling, and gene regulation studies. With QIAGEN DNA cleanup, your success is ensured — from sample to result.

## RNA Sample Technologies

Standardize and streamline gene expression analysis. Reliable RNA stabilization and purification provides the ideal platform for successful real-time PCR and RT-PCR. Combined with cutting-edge automated solutions, you will enjoy first-time success — from sample to result.

## PCR Assay Technologies

PCR assay technologies provide highly sensitive detection of DNA or RNA. Robust PCR systems allow amplification and detection without the need for user optimization of reaction conditions. PCR-based molecular testing of animals is increasingly important for many veterinary and agricultural applications. QIAGEN provides the solutions you need — from sample to result.

## Target-Specific Assay Technologies

Target-specific assay technologies provide highly sensitive and specific detection of a wide range of biomolecules. The QIAGEN GeneGlobe® Web portal allows you to order gene- and pathway-specific products for gene silencing, gene expression analysis, microRNA research, protein research, and pathway analysis. Supported by advanced sample technologies, your success is guaranteed — from sample to result.

## RNAi and miRNA Assay Technologies

RNAi and miRNA assay technologies provide world-class solutions you can rely on. High-throughput RNAi screening that targets specific gene families, druggable genomes, or the entire human genome are widely used in the pharma industry to make improvements in life possible. With QIAGEN, your RNAi and miRNA success is guaranteed — from sample to result.

## Transfection Assay Technologies

Transfection assay technologies provide reagents for DNA, mRNA, siRNA, and microRNA in a wide variety of cell lines, including sensitive primary cells. The combination of efficient transfection and low cytotoxicity with high-purity nucleic acids ensure your transfection success — from sample to result.

## Lab Essentials and Accessories

Sample and assay technologies are supported by QIAGEN Quality™ lab essentials and accessories. Molecular biology reagents guaranteed by QIAGEN ensure optimal lab performance and increasing convenience, efficiency, and reliability in the lab — from sample to result.

## **QIAGEN automated workflow from sample to result**

- Automation from sample disruption to purification, assay set up, detection and analysis
- Our automated solutions can be seamlessly integrated into your complete workflow
- Manual handling errors are eliminated freeing up your time

## QIAcube® — for fully automated nucleic acid sample prep

- No change of purification chemistry is required
- All steps in the purification procedure are fully automated
- Performance is comparable to the manual procedure

**Explore and order gene and pathway specific products at [www.GeneGlobe.com](http://www.GeneGlobe.com)**

- Gene silencing
- microRNA research
- DNA methylation analysis
- Pathway analysis
- Gene expression analysis
- Protein research
- Next-generation sequencing

## **Rotor-Gene Q — ideal for clinical diagnosis and medical research**

- Moving air keep all samples at the same temperature during rapid thermal cycling
- Up to 6 channels deliver the widest optical range currently available
- The outstanding HRM analysis has a thermal resolution of 0.02°C
- This open platform is suitable for different commercial and laboratory reagents

## **PyroMark® Systems — for quantitative methylation and mutation analysis using Pyrosequencing® technology**

- Highly accurate results in epigenetics and cancer research
- Quantification of alleles and methylation status
- Fast and reliable microbial identification and resistance detection
- Enables discovery of rare mutations and analysis of CpG sites
- Sequence context provides built-in quality control of assay

## The QIAxcel<sup>®</sup> Advanced System — for effortless DNA fragment and RNA analysis

- Safety and convenience with ready-to-use gel cartridges
- Streamlined workflow minimizes analysis time
- Robust results from nucleic acid concentration as low as 0.1 ng/μl
- Accurate analyses with resolution down to 3–5 bp
- Standardized processing with digital data collection
- The new ScreenGel software maximizes the ease of use and flexibility in both assay set up and data analysis

5199-00018	HC2 High-Risk HPV DNA Test (4 Plate Kit)	inquire			
6000-00175	Automated Plate Washer, 240V	289,480			
6000-1203	96 Well Plate	3,580			
6000-1240U	Microplate Heater I, 240V	137,360			
6000-2240E	Rotary Shaker I, 240V	137,360			
6000-3101	Rapid Capture System	inquire			
6000-3125R	AutomatedPlateWasher I,240V(Refurbished)	202,750			
6000-5000	Specimen Collection Tubes	4,370			
6000-5001	Costar Plate Lids	6,530			
6000-5003	Duraseal Sealing Film	4,140			
6000-5005	Micro Well Strips	14,000			
6000-5006	Disposable Tips	46,080			
6000-5007	Collection Tube Cap (drop on caps)	40,120			
6000-5008	RCS Reagent Troughs	2,380			
6000-5010	Reagent Trough Lids	6,890			
6000-5022	Multi-SpecimenTube(MST)Vortexer II, 240V	inquire			
6000-5023	LumiCheck Plate User Package (CD Manual)	inquire			
6000-5026	HC2 Sample Conversion Tubes 15mL	8,940			
63206X4	DyeEx 2.0 Spin Kit (1000)	183,690			
AT-01	DxS BCR-ABL T315I Mutation Test Kit	inquire			
AT-02	DxS BCR-ABL T315I Mutation Test Kit	inquire			
BR-01	DxS B-RAF Mutation Test Kit	inquire			
BR-02	DxS B-RAF Mutation Test Kit	inquire			
BS96RNA	BioSprint 96 toRNA (384), QSP	124,530			
EA10023	EASYartus HSV-1/2 RG_I	inquire			
EA10024	EASYartus HSV-1/2 RG_II	inquire			
Ea10123	EASYartus EBV RG PCR Kit 1	inquire			
Ea10124	EASYartus EBV RG PCR Kit 2	inquire			
Ea10223	EASYartus VZV RG_I	inquire

## Disclaimers

For up-to-date licensing information and product-specific disclaimers, see the respective QIAGEN kit handbook or user manual. QIAGEN kit handbooks and user manuals are available at [www.qiagen.com](http://www.qiagen.com) or can be requested from QIAGEN Technical Services or your local distributor.

© 2013 QIAGEN, all rights reserved.

The above price list does not guarantee the availability of products.

## Terms and Conditions

The terms and conditions below apply to purchases made directly with QIAGEN India Pvt Ltd., please enquire with distributors, for their terms and conditions.

### Taxes

Prices are exclusive of taxes. Central Sales Tax / VAT / Octroi / Entry Tax / Permit charges and other local levies will be charged extra. Institutions approved by the Government of India and exempt from paying taxes, will need to submit the relevant forms / approvals at the time of placing the order, otherwise normal taxes will apply. All taxes and local levies, are to the purchaser's account.

### Ordering information

Orders can be sent by fax and email:  
Customer care fax number: +91 1800 103 4114  
Email: [customercare-india@qiagen.com](mailto:customercare-india@qiagen.com)

### Important information

For fast and efficient service, please provide us with the following information:

- Valid purchase order number and date
- Billing and dispatch address
- Name and contact numbers of purchaser and end user
- Catalog number, description, quantity and rate of product

### Minimum order

There are no minimum order requirements. Please do note that minimum charges for packing and freight will apply for small order values.

### Dry ice shipments

Minimum charges of Rs.500/- will apply.

### Delivery

It is our intention to deliver products in the shortest possible time and from inventories that we maintain. Delays due to factors beyond our control, such as riots, natural calamities, glitches in external logistics chain and back order situations are likely to result in delays to the delivery schedule. Our team can help guide and answer queries related to such delays.

### Technical enquiries

Please contact the following numbers:  
Technical service phone number: +91 1800 102 4115  
Email: [TechSupport-india@qiagen.com](mailto:TechSupport-india@qiagen.com)

### Mailing information

Orders and other communication can be sent to:  
QIAGEN India Pvt Ltd.,  
Samyak Towers, 39 Pusa Road, Karol Bagh, New Delhi 110 005

## **Damage claims**

Please inspect all shipments for damages, immediately on arrival and report the same within 24 hours to our customer care at [customercare-india@qiagen.com](mailto:customercare-india@qiagen.com) or by phone on +91 1800 102 4114.

## **Instrument prices**

Please inquire for the same with the authorized distributor in your region or our Territory Sales Representatives.
